

UTKARSH RAJ

✉ utkarshrajcsestudent@gmail.com [in LinkedIn](#) [GitHub](#) [LeetCode](#) [Portfolio](#)

Professional Summary

Software Development Engineer skilled in building scalable full-stack and AI-powered applications using JavaScript, Node.js, React.js, Express.js, and MongoDB. Experienced in designing RESTful APIs, authentication systems, backend optimization, and cloud deployment for production-ready web applications. Solved 1000+ Data Structures and Algorithms problems with a LeetCode rating of 1600+, demonstrating strong analytical and problem-solving abilities.

Skills

Languages: Java, JavaScript, Python, C++

Frontend: React.js, Redux Toolkit, Tailwind CSS, Bootstrap, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Middleware

Databases: MongoDB, MySQL, PostgreSQL

Cloud & DevOps: AWS, Docker, Git, GitHub, CI/CD, Vercel, Postman

Computer Science Fundamentals: Data Structures and Algorithms, OOPs, DBMS, Operating Systems, Computer Networks, SDLC

Projects

StudyNotion - EdTech Platform [↗](#)

React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Razorpay

- Engineered a scalable full-stack EdTech platform with secure JWT authentication, role-based authorization, and dynamic course management features.
- Developed RESTful backend APIs for course tracking, user dashboards, and payment workflows using Node.js and Express.js.
- Integrated Razorpay payment gateway and Cloudinary cloud storage for secure transaction and media management.

Sigma GPT - AI Conversational Platform [↗](#)

React.js, Node.js, Express.js, MongoDB, AWS, OpenAI API

- Built an AI-powered conversational platform integrating GPT-4o Mini for real-time contextual response generation.
- Optimized API request lifecycle and backend communication workflows to improve scalability and response efficiency.
- Deployed the application on AWS cloud infrastructure with production-ready backend configuration and scalable hosting.

WanderLust - Travel Accommodation Platform [↗](#)

Node.js, Express.js, MongoDB, EJS, Cloudinary, Mapbox

- Built a full-stack accommodation booking platform with property listings, reviews, authentication, and session management.
- Integrated Cloudinary image storage and Mapbox geolocation services for dynamic location-based property visualization.
- Designed scalable backend APIs and optimized MongoDB operations for efficient listing and review management.

Achievements

- Solved **1000+** Data Structures and Algorithms problems across LeetCode and coding platforms with a **1600+** LeetCode rating.
- Selected as a **Finalist in Smart India Hackathon 2023** among thousands of competing teams nationwide.
- Strong understanding of Data Structures, Algorithms, Object-Oriented Programming, DBMS, and Operating Systems fundamentals.
- Built and deployed multiple full-stack production-ready applications using MERN stack, AWS, and scalable backend workflows.

Education

Lakshmi Narain College of Technology and Science
Bachelor of Technology in Computer Science (CGPA: 7.55)

Oct 2022 – May 2025
Madhya Pradesh, India

Patel College of Science and Technology
Diploma in Computer Science Engineering (CGPA: 8.49)

Aug 2019 – Sept 2022
Madhya Pradesh, India
